

C-arm fluoroscope operating instructions

This page describes how to use the biplanar fluoroscopy setup located in Biomed 106. Because these machines emit radiation, only trained users are authorized to use the C-arms.

The following steps each link to a separate page and should guide the user through use of the C-arm fluoroscopes.

- [Getting certified to use x-ray equipment](#)

Preliminary Steps

- [Powering up the C-arms and Computers](#)

Filming

Saving Data & Shutting Down

- [Powering down the C-arms & computers](#)
