Statement	Instructor's Question	Student's Question	Non-Chemistry Usage
My field is inorganic chemistry.	Can you use ligand field theory to explain the colors of these transition metal complexes? Explain the colors of these transition metal complexes, using ligand field theory.	I've always thought that electric and magnetic fields are hard to visualize.	We had a field day with that issue, it was so much fun. A baseball field is a different shape from a football field. He fielded that question well, just like he fields a baseball! Stay out of the field of fire in a war zone.
