

# Wave

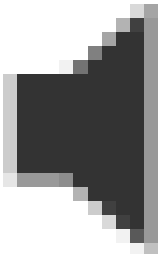

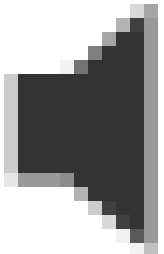

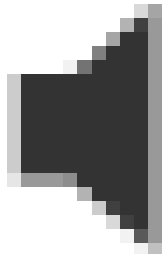

## Wave

F M

Stress Pattern	Number of Syllables	Primary Stress
WAVE	1	first

Statement	Instructor's Question	Student's Question	Non-Chemistry Usage
Schrodinger's wave equation is a differential equation, the solutions to which are the wave functions for electronic orbitals.	What is the wave function for the electron in the hydrogen atom?	Isn't that some kind of trick question, to ask whether light is really a particle or a wave?	Wave goodbye as you ride that wave on a surfboard. Science's Next Wave is a web site for people beginning scientific careers.
