

Alex Kruckman's Cave Notes

Scripts

These scripts are written in Java. For the CS junkies reading this, I'm well aware that Java is not the best language for this sort of application, but...well, I don't have a good excuse for why I used Java. They are all written for very specific applications, but they are decently commented, so they should be easy to decipher and modify.

- [Sphere](#): Written for [SMALL](#). Arranges text in a sphere. More documentation to come.
- [Timelines](#): Written for [SPACE](#). More documentation to come.
